

7.2 Best Practice 1

Promoting Heritage, Culture, Sports and Social Values among the students:-

The college is very inclined to promote the promotion of Punjabi heritage, culture and social values and link the students with them through its different programmes and activities. The college draws its action plan and puts in its calendar that is followed by the college staff, students with full of dedication and sincerity it. It is the need of the hour is to associate the students with their heritage and culture through different programmes and activities. Moreover, it is also required to inculcate social or moral values among them that play a crucial role in their personality to make think positive and contribute in the progress of the society as a good citizens.

The college makes a plan before each session with detailed schedule of different event cultural, sports and other social and religious spiritual activities. The purpose of such activities is to link the students with social, heritage and cultural activities and inculcate moral and social values among them.

Activities:-

1. The college focuses on the sports, cultural, heritage, social and religious activities in order to sensitize the students towards their own heritage, culture, sports and social and moral values.
2. The college makes a schedule of its different programmes and activities before the beginning of the session and include in its calendar.
3. The college has arranged all required infrastructure to accomplish its goals in this regard.
4. The college has formed different clubs and committees to implement its programmed and activities in the best possible way.
5. The college arranges best sports coaches for students to train them in their games. So, that they can excel in the competitions.
6. The college also arranges special coaching classes for students related to drama, folk dances, fine arts, Fashion designing, etc to train the students in different spheres in which they are perform.
7. The college facilitates the students to participate in such activities and provides all assistance to them to ensure that they do their best in different competitions.
8. The college has also established a spiritual library to inculcate social and moral values among the students. This library includes holy books related to different religions.
9. The college provides concessional and free education to the students, who participate in different events and competitions.
10. The contestants are also provided free food and lodging during their training camps and competitions.
11. A number of students also participate in different religious competitions conducted by various institutions time to time.
12. The students of the college also participate in different sports competition's at regional, state, national and International level.
13. The students of the college also participate in the Youth Festivals at zonal and interzonal levels.

Best Practice II Environment ConsciencesGoal:

To aware the people about environment and make them to contribute in maintaining environment friendly atmosphere as well as conserve and preserve natural resources.

Context:

The survival and sustainability, of human beings depends upon the environment otherwise it is difficult for them to exist. Today as the environment is being deteriorated day by day with unnecessary human's interventions in nature with their careless activities that has resulted in many types of pollutions like air pollutions, soil pollutions, water pollutions, sound pollution etc. Moreover, the man also exhausted natural resources carelessly It has many implications for human beings in the present and future. Hence, it is the need of the hour is to do efforts from all people and institutions to improve this situation. Guru Nanak College, Budhlada has taken a big initiative in this regards.

Strategy:

The college has chalked out a soud plan and strategy to initiate a move to curb all kinds of pollution as well as conserve and presence all natural resources. The college has also prepared a blueprint with main objectives and action plan to execute the whole programmes effectively and efficiently. The college has involved all students and teachers in this move through different clubs and committees.

Execution

1. The college has included the whole programmes and activities in the academic calendar of the college.
2. The college has formed different clubs and committees to execute all the programs and activities of this mission.
3. NSS wings of the college also play a crucial role to materialize these action plans.
4. The department of Agriculture, Chemistry and Food processing are mainly involved in this move. These departments have contributed a lot to achieve the objective of this mission through there different activities.

Activities of the college (best practice)

1. Polythene ban:
2. The college has declared its campus polythene free and the faculty and students are motivated to stop using polythene.
3. Plantation drives:
4. The NCC and NSS wings of the college have carried out a number of drives to motivate the students and other people to plant trees in the college and outside the college. The college also distributes free saplings to dignitaries who visit the college on different occasions
5. The college also conducts a number of workshops and seminars on environmentconsciousness.
6. The college also celebrates environment day.
7. There is a spiritual park established by the college to sensitize the students and faculty towards the care of environment.
8. The college has also made great efforts to make the local farmers aware of the air pollution and motivated to stop crop burning.
9. The college motivates the people to save water. The different departments of the college have conducted a number of lectures seminars and talks on this burning issue.
10. The college has also conducted a different programme to aware local people about the noise pollution and its bad effects for society.
11. The college has also made great efforts to conserve and preserve natural resources like water, fuel etc. The students and local people are motivated to use other natural energy resources like wind energy etc.
12. The college also carries out cleanness drive in the line of "Swachh Bharat Abhiyan".

13. The department of agriculture has also produced vermi compose manure for the use of the local farmers. The department of Agriculture has also motivated the farmers to use only organic manure and avoid chemical manure.
14. The department of Agriculture also motivates people to adopt organic farming. It also conducts organic farming using organic manure and avoiding chemical fertilizers.
15. The department of Chemistry has also played a crucial role to make the people aware of the harmful effects of pesticides and motivate them to avoid chemical pesticides and fertilizers.

Success

It has been a great success to make the society conscious about the environment and involve the people to conserve and preserve natural resources. The students and staff members have been very much involved in this drive to aware the local people regarding this moment. The most of the staff members of the college have started using cycles and avoid cars and motorcycles. The local people have become very much conscious about environment. They have decreased using chemical pesticides and fertilizers and started using the organic manure like vermi compose.

They have been also conscious about the scarcity water and have started saving water. They have been educated enough to find new alternatives of chemical pesticides to save the coming generations from their harmful effects.
